

## **BRIGHTER WAY**

Words and music by Amy Carol Wolff

### **V1**

To those who see the widowed  
The infected and abused  
To those who hear them asking for deliverance  
To those who are angered  
By the failed attempts at progress  
And are inspired to give the forgotten their voice...

### **C**

Show them there's a brighter way  
A rushing river gaining ground  
Bringing life and hope abound  
A brighter love,  
One that reaches deep enough  
To see their pain and lift them up in grace  
This is purpose  
For this we sing.

### **V2**

We must join together  
Hear the cries of the hopeful  
Who know there is power in our passion  
Committing to this calling  
To be one in our mission, empowering with life

### **C**

Show them there's a brighter way  
A rushing river gaining ground  
Bringing life and hope abound  
A brighter love,  
One that reaches deep enough  
To see their pain and lift them up in grace  
This is purpose  
For this we sing.

### V3

This is our noble battle,  
Our adventure finding beauty,  
In the eyes of a child, in the callused hands of poverty  
We will not settle for signed paper contracts  
We will move, inspiring others to believe  
Show them there's a brighter way  
A brighter love, oh

### C

Show them there's a brighter way  
A rushing river gaining ground  
Bringing life and hope abound  
A brighter love,  
One that reaches deep enough  
To see their pain and lift them up in grace  
This is purpose  
For this we sing.  
For this we sing.  
For those who see
